

The Seven Ps of Blended Learning

The Student at the Center

"Great blended learning builds upon a foundation of expert, in-person teaching."
 Seven Ps © [K-12 Blended Teaching](#) [iNACOL](#)

1 Participation

How this happens:
 Online discussions can help to equalize the amount of student participation by giving everyone a voice.

2 Pacing

How this Helps:
 Students can move at their own pace, advancing when they have met specific benchmarks.

3 Personalization

How this Works:
 Online learning components can help teachers provide students with more agency in directing their own education.

4 Place

Why this matters:
 The online space is more flexible so students can learn wherever and whenever is most beneficial to them.

5 Personal Interaction

Why this is helpful:
 Instruction is focused on the individual so teachers can spend more time interacting with individual students.

6 Preparation

What this means:
 Students have access to course materials online before, during and after class time and feel more prepared.

7 Practice with Feedback

How this Happens
 Elements of online learning provide students with the opportunity to receive immediate feedback through responsive assessments and interactive activities.
